Investments carry risks, including possible loss of principal. Portfolios investing in bonds have the same interest rate, inflation, and credit risks that are associated with the underlying bonds. The value of bonds will fluctuate relative to changes in interest rates, decreasing when interest rates rise. Unlike bonds, bond funds have ongoing fees and expenses. Please see the Funds' prospectus for a discussion of the risks associated with an investment in the Funds. Investments in the Funds are not FDIC insured, nor are they bank deposits or guaranteed by a bank or any other entity.

Letter to Shareholders

March 31, 2023 (Unaudited)

Dear Shareholder:

As I reflect on the current market environment, I can't help but think of Hemingway's novel "The Sun Also Rises," as one of the characters is asked how they went bankrupt. The answer: "Two ways. Gradually and then suddenly." The answer often feels appropriate in the context of changes in a market dynamic. Over the past year or so, we've seen the effects of the Federal Reserve's (the "Fed") interest rate hiking cycle work through the markets gradually, with losses on both risky and riskless assets affected by a notably higher cost of borrowing money.

Six months ago, I wrote:

"We at Thornburg believe that this dramatic interest rate hiking cycle, combined with a significant pace of quantitative tightening, will continue to drive market volatility and likely create moments of intermittent liquidity in the market similar to a dry Santa Fe spring."

Fast forward to today, spring has returned to Santa Fe, and liquidity continues to dry up. While the weather varies, the desert climate is parched. In markets too, there are days and weeks where it feels as though data and earnings, as well as market liquidity, are fairly good. But the overall trends in the current market are troubling us both in Santa Fe and beyond. While it is possible that the Fed engineers a soft landing for the U.S. economy this year, the direction of many leading economic indicators remains lower. I am always on the lookout for how market and economic impact might be different this time because sometimes there are more secular changes in the market that are likely to continue in the same general direction for the foreseeable future than cyclical changes. Furthermore, the pandemic has created a huge set of reverberations that we are still experiencing three years later. Yet, in our view, people and psychology are the same. Our experience tells us that a higher cost of capital has fairly universal effects. While outcomes are never linear, and history never really repeats itself, it's difficult for us to see how the market storms we're tasked with navigating these past several years will become calmer or less frequent.

Over the last six months, we have seen a recovery in risky asset prices, from equities to credit spreads. We've also seen fairly dramatic market movements towards lower yields as the market appears to bet on a resolution of dissolvement of recent interest rate increases from monetary policymakers. While inflation is high, it is coming down, and from our vantage point many market participants are explicitly or implicitly reasoning that the pain of recession will feel clearer and more present than the ache of inflation. I'm not so sure that the Fed will. It is highly unlikely that any policymaker wants to be seen as responsible for runaway inflation. It will mostly likely take a higher unemployment rate and an inflation print closer to 2% for the Fed to move interest rates lower. While I believe that this could happen by the end of 2023, the intervening period may not be fun. I also think that the collapse of Silicon Valley Bank says more about the tech and private capital ecosystem than the banking system writ large. The

inescapable conclusion to us is that cheap money finds its way into all the financial system cracks. When that dries out, the system can be vulnerable and brittle.

Looking forward, there may be very interesting opportunities arising from the current chaotic market conditions we are seeing. Yields on high-quality bonds have recently risen to the point of having traditional sources of value: income and portfolio ballast. International and income-producing equities presently have undemanding multiples, especially relative to the U.S. While it has been well over a decade since the best equity returns have been outside the U.S., the last time was the early 2000s, which for me, is the best analogue for the present market situation.

As in any environment, we will be focused on you, our clients, as our most important constituency. Though there is never a guarantee that we will be able to navigate the evolving marketplace as well as we may have before, I have a confidence born of experience that our unsiloed, global approach to active investment management should continue to allow us to achieve our goal of long-term investment excellence. It is always the case that challenges often come hand-in-hand with opportunities, and I have watched our portfolios perform well over the years when difficult situations arise. We continue to see that no market is an island, and the effects from actions somewhere in the world can be felt everywhere. Our process, which focuses on this interconnection through the development of a collaborative and deeply informed perspective, by design has thrived in these kind of investment conditions.

Thornburg's 41-year history is not one of perfection but rather one of a continual focus on our craft that leads to deliberate reflection and evolution. We reinvest in our investment process and our ability to meet client needs while staying true to what makes the firm's identity differentiated and successful. I have great respect for other investment firms and there are many good products that are available to investors. But we believe that in times like these, our firm's broad perspective and collaborative, unsiloed approach is our sustainable competitive advantage. These qualities are what underlie the excellent long-term outcomes we have achieved for our clients: we're built to deliver on the promise of active management.

Thank you so much for your time and your business.

Investment Goal and **Fund Overview**

The primary goal of Short Duration Municipal Fund is to provide current income exempt from federal income tax, consistent with preservation of capital.

The Fund is an actively managed, laddered portfolio of municipal bonds with a dollar-weighted average duration of normally no more than three years. Actively laddering portfolios involves building a portfolio of bonds with different maturities, based on our assessment of market risks and individual credit opportunities, so that a portion of the portfolio matures each year and cash from maturing bonds may be invested in bonds with longer maturities.

Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 2.57% versus the ICE BofA 1-3 Year U.S. Municipal Securities Index's (the "Index") return of 2.71% during the 6-month period ended March 31, 2023. The Fund's positive total return was the result of a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the period.
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's ownership of longer maturity municipal bonds versus the Index led yield curve positioning to be a large positive contributor to performance relative to the Index during the period. The Fund's performance relative to the Index also benefited from security selection.

Thornburg Limited Term Municipal Fund

Investment Goal and **Fund Overview**

The primary investment goal of Limited Term Municipal Fund is to obtain as high a level of current income exempt from federal individual income tax as is consistent, in the view of the Fund's investment advisor, with preservation of capital. The secondary goal of the Fund is to reduce expected changes in its share price compared to longer intermediate and long-term bond portfolios.

The Fund is an actively managed, laddered portfolio of municipal bonds with a dollar-weighted average maturity normally of less than five years. Actively laddering portfolios involves building a portfolio of bonds with different maturities, based on our assessment of market risks and individual credit opportunities, so that portion of the portfolio matures each year and cash from maturing bonds may be invested in bonds with longer maturities.

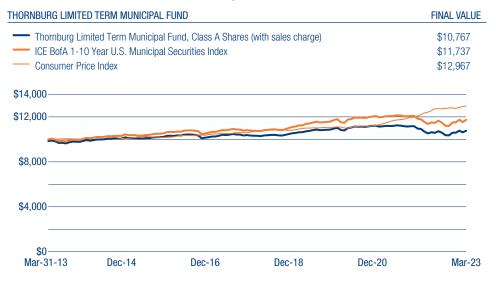

Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 3.93% versus the ICE BofA 1-10 Year U.S. Municipal Securities Index's (the "Index") return of 4.70% during the 6-month period ended March 31, 2023. The Fund's positive total return resulted from a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the period.
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's security selection and yield curve positioning were positive contributors to performance relative to the Index during the period.

Investment Goal and **Fund Overview**

The primary investment goal of Limited Term California Fund is to obtain as high a level of current income exempt from federal and California state individual income taxes as is consistent, in the view of the Fund's investment advisor, with preservation of capital. The secondary goal of the Fund is to reduce expected changes in its share price compared to longer intermediate and long-term bond portfolios.

The Fund is an actively managed, laddered portfolio of California and U.S. territory municipal bonds with a dollar-weighted average maturity normally less than five years. Actively laddering portfolios involves building a portfolio of bonds with different maturities, based on our assessment of market risks and individual credit opportunities, so that a portion of the portfolio matures each year and cash from maturing bonds may be invested in bonds with longer maturities.

Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 3.59% versus the ICE BofA 1-10 Year U.S. Municipal Securities Index's (the "Index") return of 4.70% during the 6-month period ended March 31, 2023. The Fund's positive total return resulted from a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the period.
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's security selection was a positive contributor to both absolute and relative performance during the period, as California municipal bonds performed better than national bonds that comprise the Index.

Thornburg New Mexico Intermediate Municipal Fund

Investment Goal and **Fund Overview**

The primary investment goal of Intermediate New Mexico Fund is to obtain as high a level of current income exempt from federal and New Mexico state individual income taxes as is consistent, in the view of the Fund's investment advisor, with preservation of capital. The secondary goal of the Fund is to reduce expected changes in its share price compared to long term bond portfolios.

The Fund is an actively managed, laddered portfolio of New Mexico and U.S. territory municipal bonds with a dollar weighted average maturity of normally three to ten years. Actively laddering portfolios involves building a portfolio of bonds with different maturities, based on our assessment of market risks and individual credit opportunities, so that a portion of the portfolio matures each year and cash from maturing bonds may be invested in bonds with longer maturities.

Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 4.43% versus the ICE BofA 3-15 Year U.S. Municipal Securities Index's (the "Index") return of 6.44% during the 6-month period ended March 31, 2023. The Fund's positive total return was the result of a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the period.
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's yield curve positioning, security selection, sector and quality allocations were all detractors from both absolute and relative performance during the period.

# Investment Goal and **Fund Overview**

The primary investment goal of Intermediate New York Fund is to obtain as high a level of current income exempt from federal, New York State and New York City individual income taxes as is consistent, in the view of the Fund's investment advisor, with preservation of capital. The secondary goal of the Fund is to reduce expected changes in its share price compared to long term bond portfolios.

The Fund is an actively managed, laddered portfolio of New York and US territory municipal bonds with a dollar weighted average maturity of normally three to ten years. Actively laddering portfolios involves building a portfolio of bonds with different maturities, based on our assessment of market risks and individual credit opportunities, so that a portion of the portfolio matures each year and cash from maturing bonds may be invested in bonds with longer maturities.

### Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 4.06% versus the ICE BofA 3-15 Year U.S. Municipal Securities Index's (the "Index") return of 6.44% during the 6-month period ended March 31, 2023. The Fund's positive total return was the result of a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the period.
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's yield curve positioning, security selection, sector and quality allocations were all detractors from both absolute and relative performance during the period.

# Investment Goal and **Fund Overview**

The primary goal of Strategic Municipal Income Fund is to seek a high level of current income exempt from federal individual income tax.

The Fund has a flexible mandate to invest across a wide range of maturities and credit qualities. The Fund will not invest more than 50% of its portfolio in bonds rated below investment grade and/or unrated bonds at the time of purchase. Also, the portfolio will generally be diversified among sectors, issuers, credit qualities, geographic regions, and segments of the yield curve.

### Performance drivers and detractors for the reporting period ended March 31, 2023

- » The Fund's Class I shares returned 5.40% versus the ICE BofA U.S. Municipal Master Index's (the "Index") return of 6.97% during the 6-month period ended March 31, 2023. The Fund's positive total return was the result of a strong recovery in the municipal bonds market that began at the end of October 2022 and continued through the end of the
- » The Fund's duration was a large contributor to absolute performance during the period as yields fell significantly after reaching multi-year highs at the end of October 2022, boosting municipal bond prices. However, the Fund's shorter duration positioning led to its underperformance relative to the Index during the period.
- » The Fund's security selection, as well as sector and quality allocations, detracted from both absolute and relative performance as lower-quality municipal bonds outperformed higher-quality municipal bonds and longer-maturity municipal bonds outperformed shorter-maturity municipal bonds during the period.

# Glossary

March 31, 2023 (Unaudited)

The ICE BofA 1-3 Year U.S. Municipal Securities Index is a subset of the ICE BofA U.S. Municipal Securities Index including all securities with a remaining term to final maturity greater than or equal to 1 year and less than 3 years.

The ICE BofA 1-10 Year U.S. Municipal Securities Index is a subset of the ICE BofA U.S. Municipal Securities Index including all securities with a remaining term to final maturity less than 10 years.

The ICE BofA 3-15 Year U.S. Municipal Securities Index is a subset of the ICE BofA U.S. Municipal Securities Index including all securities with a remaining term to final maturity greater than or equal to 3 years and less than 15 years.

The ICE BofA U.S. Municipal Master Index tracks the performance of the investment-grade U.S. tax-exempt bond market. Qualifying bonds must have at least one year remaining term to maturity, a fixed coupon schedule, and an investment grade rating (based on average of Moody's, S&P, and Fitch).

The performance of any index is not indicative of the performance of any particular investment. Unless otherwise noted, index returns reflect the reinvestment of income dividends and capital gains, if any, but do not reflect fees, brokerage commissions or other expenses of investing. Investors may not make direct investments into any index.

Duration – A bond's sensitivity to interest rates. Bonds with longer durations experience greater price volatility than bonds with shorter durations. Effective duration incorporates a bond's embedded option features, such as call provisions.

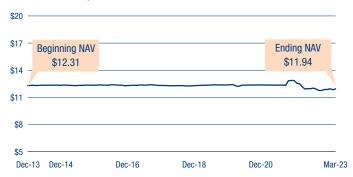

Yield Curve – A line that plots the interest rates, at a set point in time, of bonds having equal credit quality, but differing maturity dates.

Parallel and non-parallel shifts - Relates to the movement of the yield curve. A parallel shift means the yield curve moves up or down the same amount across the entire curve (short and long ends move). A non-parallel shift means the short end and long end move at different amounts. For example, the short end may move up 10 basis points while the long-end may move up 20 basis points.

## Notes to Financial Statements

March 31, 2023 (Unaudited)

#### **NOTE 1 – ORGANIZATION**

Thornburg Short Duration Municipal Fund ("Short Duration Municipal Fund"), Thornburg Limited Term Municipal Fund ("Limited Term California Fund"), Thornburg New Mexico Intermediate Municipal Fund ("Intermediate New Mexico Fund"), Thornburg New York Intermediate Municipal Fund ("Intermediate New York Fund"), Thornburg Intermediate Municipal Fund ("Intermediate Municipal Fund") and Thornburg Strategic Municipal Income Fund ("Strategic Municipal Income Fund ("Strategic Municipal Income Fund"), collectively the "Funds", are series of Thornburg Investment Trust (the "Trust"). The Short Duration Municipal Fund, Limited Term Municipal Fund, Limited Term California Fund, Intermediate Municipal Fund, and Strategic Municipal Income Fund are diversified. The Intermediate New Mexico Fund and Intermediate New York Fund are non-diversified. The Trust is organized as a Massachusetts business trust under a Declaration of Trust dated June 3, 1987 and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). As of March 31, 2023, the Funds are currently seven of twenty-one separate series of the Trust. Each series is considered to be a separate entity for financial reporting and tax purposes and bears expenses directly attributable to it.

Short Duration Municipal Fund: The Fund's investment goal is to seek current income exempt from federal income tax, consistent with preservation of capital. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, and redemption risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

Limited Term Municipal Fund: The Fund's primary investment goal is to obtain as high a level of current income exempt from federal individual income tax as is consistent, in the view of Thornburg Investment Management, Inc., the Trust's investment advisor (the "Advisor"), with the preservation of capital. The Fund's secondary goal is to reduce expected changes in its share price compared to longer intermediate and long-term bond portfolios. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, and redemption risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

Limited Term California Fund: The Fund's primary investment goal is to obtain as high a level of current income exempt from federal and California state individual income taxes as is consistent, in the view of the Advisor, with the preservation of capital. The Fund's secondary goal is to reduce expected changes in its share price compared to longer intermediate and long-term bond portfolios. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, redemption risk, and single state risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund

Intermediate New Mexico Fund: The Fund's primary investment goal is to obtain as high a level of current income exempt from federal and New Mexico state individual income taxes as is consistent, in the view of the Advisor, with the preservation of capital. The Fund's secondary goal is to reduce expected changes in its share price compared to long-term bond portfolios. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, non-diversification risk, redemption risk, and single state risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

Intermediate New York Fund: The Fund's primary investment goal is to obtain as high a level of current income exempt from federal, New York State, and New York City individual income taxes as is consistent, in the view of the Advisor, with the preservation of capital. The Fund's secondary goal is to reduce expected changes in its share price compared to long-term bond portfolios. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, non-diversification risk, redemption risk, and single state risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

Intermediate Municipal Fund: The Fund's primary investment goal is to obtain as high a level of current income exempt from federal individual income tax as is consistent, in the view of the Advisor, with the preservation of capital. The Fund's secondary goal is to reduce expected changes in its share price compared to long-term bond portfolios. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, interest rate risk, liquidity risk, management risk, market and economic risk, and redemption risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

Strategic Municipal Income Fund: The Fund's investment goal is to seek a high level of current income exempt from federal individual income tax. The Fund's investments subject it to certain risks. As of the date of this report, the principal risks of investing in the Fund include credit risk, cybersecurity and operational risk, high yield risk, interest rate risk, liquidity risk, management risk, market and economic

risk, and redemption risk. Please see the Fund's prospectus for a discussion of those principal risks and other risks associated with an investment in the Fund.

As of March 31, 2023, the Funds each currently offer up to four classes of shares of beneficial interest.

Each class of shares of the Funds represents an interest in the same portfolio of investments, except that (i) Class A shares are sold subject to a front-end sales charge collected at the time the shares are purchased and bear a service fee, (ii) Class C shares are sold at net asset value without a sales charge at the time of purchase, but are subject to a contingent deferred sales charge upon redemption within one year of purchase, and bear both a service fee and a distribution fee, (iii) Class C2 shares are sold at net asset value without a sales charge at the time of purchase, but are subject to a contingent deferred sales charge upon redemption within one year of purchase, and bear both a service fee and a distribution fee, (iv) Class D shares are sold at net asset value without a sales charge at the time of purchase or redemption, and bear both a service fee and a distribution fee, (v) Class I shares are sold at net asset value without a sales charge at the time of purchase and may be subject to a service fee, and (vi) the respective classes may have different reinvestment privileges and conversion rights. Additionally, each Fund may allocate among its classes certain expenses, to the extent allocable to specific classes, including administration fees, transfer agent fees, government registration fees, certain printing and postage costs, and legal expenses. Currently, class specific expenses of the Funds are limited to distribution and service fees, transfer agent fees, and certain registration and filing fees.

At March 31, 2023, the following classes of shares are offered in each respective Fund:

	CLASS A	CLASS C	CLASS C2	CLASS D	CLASS I
Short Duration Municipal Fund	Χ				Χ
Limited Term Municipal Fund	X	Χ	Χ		Χ
Limited Term California Fund	X	Χ	Χ		Χ
Intermediate New Mexico Fund	X			Χ	Χ
Intermediate New York Fund	X				Χ
Intermediate Municipal Fund	X	Χ	Χ		Χ
Strategic Municipal Income Fund	X	Χ			Χ

#### **NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies followed by each of the Funds in the preparation of its financial statements. Each Fund prepares its financial statements in conformity with United States generally accepted accounting principles ("GAAP"), including investment company accounting and reporting guidance in the Financial Accounting Standards Board (the "FASB") Accounting Standard Codification Topic 946.

Allocation of Income, Gains, Losses and Expenses: Net investment income (other than class specific expenses) and realized and unrealized gains and losses are allocated daily to each class of shares based upon the relative net asset value of outstanding shares (or the value of the dividend-eligible shares, as appropriate) of each class of shares at the beginning of the day (after adjusting for the current capital shares activity of the respective class). Expenses common to all Funds are allocated daily among the Funds comprising the Trust based upon their relative net asset values or other appropriate allocation methods. Operating expenses directly attributable to a specific class are charged against the operating income of that class.

Dividends and Distributions to Shareholders: Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and may differ from GAAP, are recorded on the ex-dividend date. Ordinary income dividends, if any, are declared daily and paid monthly. Capital gain distributions, if any, are declared and paid annually and more often if deemed necessary by the Advisor. Dividends and distributions are paid and are reinvested in additional shares of the Funds at net asset value per share at the close of business on the ex-dividend date, or at the shareholder's option, paid in cash.

Guarantees and Indemnifications: Under the Trust's organizational documents (and under separate agreements with the independent Trustees), its officers and Trustees are provided with an indemnification against certain liabilities arising out of the performance of their duties to the Funds. In the normal course of business the Trust may also enter into contracts with service providers that contain general indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, based on experience, the Trust expects the risk of loss to be remote.

Investment Income: Interest income is accrued as earned. Premiums and discounts are amortized and accreted, respectively, to first call dates or maturity dates using the effective yield method of the respective investments. These amounts are included in Investment Income in the Statement of Operations.

#### Notes to Financial Statements, Continued

March 31, 2023 (Unaudited)

<u>Investment Transactions:</u> Investment transactions are accounted for on a trade date basis. Realized gains and losses from the sale of investments are recorded on an identified cost basis.

Security Valuation: All investments in securities held by the Funds are valued as described in Note 3.

<u>Use of Estimates:</u> The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases (decreases) in net assets from operations during the reporting period. Actual results could differ from those estimates.

When-Issued and Delayed Delivery Transactions: The Funds may engage in when-issued or delayed delivery transactions. To the extent the Funds engage in such transactions, they will do so for the purpose of acquiring portfolio investments consistent with the Funds' investment objectives and not for the purpose of investment leverage or to speculate on interest rate or market changes. At the time the Funds make a commitment to purchase an investment on a when-issued or delayed delivery basis, the Funds will record the transaction and reflect the value in determining its net asset value. Pursuant to current U.S. Securities and Exchange Commission ("SEC") guidance, a transaction involving a when-issued security will not be deemed to involve a senior security as long as the Funds intend to settle the transaction physically and the transaction settles within 35 days. Investments purchased on a when-issued or delayed delivery basis do not earn interest until the settlement date. The values of these securities held at March 31, 2023 are detailed in the Schedule of Investments.

#### **NOTE 3 - SECURITY VALUATION**

Valuation of the Funds' portfolio investment securities is performed by the Advisor, which has been designated by the Trustees of the Trust (the "Trustees") as the Funds' "valuation designee," as that term is defined in rule 2a-5 under the 1940 Act. The Advisor performs this valuation function under the supervision of the Trustees and in accordance with policies and procedures that have been adopted by the Advisor and approved by the Trustees (the "Valuation Policy and Procedures").

In its capacity as the Funds' valuation designee, the Advisor makes good faith determinations of the fair value of portfolio securities for which market quotations are not readily available, and otherwise complies with and administers the Valuation Policy and Procedures. The Advisor performs those functions in significant measure through its Valuation and Pricing Committee (the "Committee"), though the Advisor may also obtain the assistance of others, including professional pricing service providers selected and approved by the Committee. In accordance with the Valuation Policy and Procedures, the Committee: assesses and manages the material risks associated with determining the fair value of those Fund investments for which market quotations are not readily available; selects and applies methodologies for determining and calculating such fair values; periodically reviews and tests the appropriateness and accuracy of those methodologies; monitors for circumstances that may necessitate the use of fair value; and approves, monitors, and evaluates pricing services engaged to provide evaluated prices for the Funds' investments. The Committee provides reports on its activities to the Trustees' Audit Committee, which is responsible for overseeing the Committee's and the Advisor's work in discharging the functions under the Valuation Policy and Procedures.

In those instances when the Committee assists in calculating a fair value for a portfolio investment, the Committee seeks to determine the price that the Funds would reasonably expect to receive upon a sale of the investment in an orderly transaction between market participants on the valuation date. The Committee customarily utilizes quotations from securities broker dealers in calculation valuations, but also may utilize prices obtained from pricing service providers or other methods selected by the Committee. Because fair values calculated by the Committee are estimates, the calculation of a fair value for an investment may differ from the price that would be realized by the Funds upon a sale of the investment, and the difference could be material to the Funds' financial statements. The Committee's calculation of a fair value for an investment may also differ from the prices obtained by other persons (including other mutual funds) for the investment.

<u>Valuation of Securities</u>: Debt obligations held by the Funds which are not listed or traded on exchanges or for which no reported market exists are ordinarily valued at the valuation obtained from a pricing service provider approved by the Committee.

In any case when a pricing service provider fails to provide a valuation for a debt obligation held by the Funds, the Committee may calculate a fair value for the obligation using alternative methods selected and approved by the Committee. Additionally, in cases when the Committee believes that a valuation obtained from a pricing service provider is stale, does not reflect material factors affecting the valuation of the investment, is significantly different than the value the Funds are likely to obtain if it sought a bid for the investment, or is otherwise unreliable, the Committee may calculate a fair value for the obligation using an alternative method selected and approved by the Committee.

<u>Valuation Hierarchy:</u> The Funds categorize their investments based upon the inputs used in valuing those investments, according to a three-level hierarchy established in guidance from the FASB. Categorization of investments using this hierarchy is intended by the FASB to maximize the use of observable inputs in valuing investments and minimize the use of unobservable inputs by requiring that the most

observable inputs be used when available. Observable inputs are those that market participants would use in valuing an investment based on available market information. Unobservable inputs are those that reflect assumptions about the information market participants would use in valuing an investment. An investment's level within the hierarchy is based on the lowest level input that is deemed significant to the valuation. The methodologies and inputs used to value investments are not necessarily indications of the risk or liquidity associated with those investments.

Various inputs are used in calculating valuations for the Funds' investments. These inputs are generally summarized according to the three-level hierarchy below:

Level 1: Quoted prices in active markets for identical investments.

Level 2: Other direct or indirect significant observable inputs (including quoted prices for similar investments in active markets and other observable inputs, such as interest rates, prepayment rates, credit ratings, etc.).

Level 3: Significant unobservable inputs (including the Committee's own assumptions in calculating the fair values of investments).

Valuations for debt obligations held by the Funds are typically calculated by pricing service providers approved by the Committee and are generally characterized as Level 2 within the valuation hierarchy.

In a limited number of cases the Committee calculates a fair value for investments using broker quotations or other methods approved by the Committee. When the Committee uses a single broker quotation to calculate a fair value for an investment without other significant observable inputs, or if a fair value is calculated using other significant inputs that are considered unobservable, the investment is characterized as Level 3 within the hierarchy. Other significant unobservable inputs used to calculate a fair value in these instances might include an income-based valuation approach which considers discounted anticipated future cash flows from the investment and application of discounts due to the nature or duration of any restrictions on the disposition of the investment.

Valuations based upon the use of inputs from Levels 1, 2 or 3 may not represent the actual price received upon the disposition of an investment, and a Fund may receive a price that is lower than the valuation based upon these inputs when it sells the investment.

The following tables display a summary of the fair value hierarchy measurements of each Fund's investments as of March 31, 2023:

### NOTE 4 - INVESTMENT MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Pursuant to an investment advisory agreement with the Trust, the Advisor serves as the investment advisor and performs advisory services for the Funds for which the Advisor's management fees are payable at the end of each month. Under the investment advisory agreement, each Fund pays the Advisor a management fee based on the average daily net assets of that Fund at an annual rate as shown in the following table:

				INTERMEDIATE NEW N	IEXICO FUND,		
		LIMITED TERM MUNIC	CIPAL FUND,	INTERMEDIATE NEW	YORK FUND,		
SHORT DURATION MUN	NICIPAL FUND	LIMITED TERM CALIF	ORNIA FUND	INTERMEDIATE MUNI	CIPAL FUND	STRATEGIC MUNICIPAL	INCOME FUND

		Over \$2 billion	0.225	Over \$2 billion	0.275	Over \$2 billion	0.500

The Funds' effective management fees, calculated on the basis of the Funds' average daily net assets (before applicable management fee waivers) for the six months ended March 31, 2023 were as shown in the following table. Total management fees incurred by the Funds for the six months ended March 31, 2023 are set forth in the Statement of Operations.

	EFFECTIVE MANAGEMENT FEE
Short Duration Municipal Fund	0.400%
Limited Term Municipal Fund	0.300
Limited Term California Fund	0.500
Intermediate New Mexico Fund	0.500
Intermediate New York Fund	0.500
Intermediate Municipal Fund	0.478
Strategic Municipal Income Fund	0.750

The Trust has entered into an administrative services agreement with the Advisor, whereby the Advisor will perform certain administrative services. The administrative services fees are computed as an annual percentage of the aggregate average daily net assets of all Funds in the Trust as follows:

#### ADMINISTRATIVE SERVICES FEE SCHEDULE

DAILY NET ASSETS	FEE RATE
Up to \$20 billion	0.100%
\$20 billion to \$40 billion	0.075
\$40 billion to \$60 billion	0.040
Over \$60 billion	0.030

The aggregate administrative services fee amount is allocated on a daily basis to each Fund based on net assets and subsequently allocated to each class of shares of the Funds. Total administrative services fees incurred by each class of shares of the Funds for the six months ended March 31, 2023, are set forth in the Statement of Operations.

The Trust has an underwriting agreement with Thornburg Securities Corporation (the "Distributor"), an affiliate of the Advisor, which acts as the distributor of the Funds' shares. For the six months ended March 31, 2023, the Distributor has advised the Funds that they earned net commissions from the sale of Class A shares and collected contingent deferred sales charges ("CDSC Fees") from redemptions of Class C and Class C2 shares as follows:

	COMI	MISSIONS	CDSC FEES	
Limited Term Municipal Fund	\$	3,092	\$	2,692
Limited Term California Fund		1		_
Intermediate New York Fund		(80)		_
Intermediate Municipal Fund		215		1,101
Strategic Municipal Income Fund		1,603		340

Pursuant to a service plan under Rule 12b-1 of the 1940 Act, the Funds may reimburse to the Distributor an amount not to exceed .25 of 1% per annum of the average daily net assets attributable to the applicable Class A, Class C, Class C2 and Class I shares of the Limited Term Municipal Fund, Limited Term California Fund and Intermediate Municipal Fund, Class A, Class C, and Class I shares of the Strategic Municipal Income Fund, Class A and Class I shares of the Intermediate New York Fund and Class A, Class D and Class I shares of the Intermediate New Mexico Fund and .20 of 1% per annum of the average daily net assets attributable to the applicable Class A and Class I shares of Short Duration Municipal Fund for payments made by the Distributor to securities dealers and other financial institutions to obtain various shareholder and distribution related services. For the six months ended March 31, 2023, there were no 12b-1 service plan fees charged for Class I. The Advisor and Distributor each may pay out of its own resources additional expenses for distribution of each Fund's shares and shareholder services.

The Trust has also adopted a distribution plan pursuant to Rule 12b-1, applicable only to the Funds' Class C, Class C2, and Class D shares, under which the Funds compensate the Distributor for services in promoting the sale of Class C and Class D shares of the Funds at an annual rate of up to .25 of 1% per annum of the average daily net assets attributable to Class C of the Limited Term Municipal Fund and Limited Term California Fund and Class D shares of the Intermediate New Mexico Fund, .35 of 1% per annum of the average daily net assets attributable to Class C of the Intermediate Municipal Fund and Strategic Municipal Income Fund and .40 of 1% per annum of the average daily net assets attributed to Class C2 shares of the Limited Term Municipal Fund, Limited Term California Fund, and Intermediate Municipal Fund. Total fees incurred by each class of shares of the Funds under their respective service and distribution plans for the six months ended March 31, 2023, are set forth in the Statements of Operations.

### Notes to Financial Statements, Continued

March 31, 2023 (Unaudited)

The Advisor has contractually agreed to waive certain fees and reimburse certain expenses incurred by certain classes of the Funds. The agreement may be terminated by the Trust at any time, but may not be terminated by the Advisor before February 1, 2024 unless the Advisor ceases to be the investment advisor to the Funds prior to that date. The Advisor may recoup amounts waived or reimbursed during the six months ended March 31, 2023 if, during the period, expenses fall below the contractual limit that was in place at the time these fees and expenses were waived or reimbursed. The Advisor will not recoup fees or expenses as described in the preceding sentence if that recoupment would cause the Funds' total annual operating expenses (after the recoupment is taken into account) to exceed the lesser of: (a) the expense cap that was in place at the time the waiver or reimbursement occurred; or (b) the expense cap that is in place at the time of the recoupment. Expense caps exclude taxes, interest expenses, acquired fund fees and expenses, brokerage commissions, borrowing costs, expenses relating to short sales, and unusual expenses such as contingency fees or litigation costs.

Actual expenses of certain share classes do not exceed levels as specified in each Fund's most recent prospectus as shown on the following table:

Certain officers and Trustees of the Trust are also officers or directors of the Advisor and Distributor. The compensation of the independent Trustees is borne by the Trust. The Trust also pays a portion of the Chief Compliance Officer's compensation. These amounts are reflected as Trustee and officer fees in the Statement of Operations.

As of March 31, 2023, the percentage of direct investments in the Funds held by the Trustees, officers of the Trust, and the Advisor is approximately as follows.

	PERCENTAGE OF DIRECT INVESTMENTS

The Funds may purchase or sell securities from or to an affiliated fund, provided the affiliation is due solely to having a common investment advisor, common officers, or common trustees, and provided that all such transactions will comply with Rule 17a-7 under the 1940 Act. For the six months ended at March 31, 2023, the Rule 17a-7 purchases, sales and gains/(losses) were as follows.

#### **NOTE 5 - TAXES**

Federal Income Taxes: It is the policy of the Trust to comply with the provisions of the Internal Revenue Code of 1986 applicable to regulated investment companies and to distribute to shareholders substantially all investment company taxable income including net realized gains on investments (if any), and tax exempt income of the Funds. Therefore, no provision for federal income or excise tax is required.

The Funds file income tax returns in United States federal and applicable state jurisdictions. The statute of limitations on the Funds' tax return filings generally remains open for the three years following a return's filing date. The Funds have analyzed each uncertain tax position believed to be material in the preparation of the Funds' financial statements for the six month period ended March 31, 2023, including open tax years, to assess whether it is more likely than not that the position would be sustained upon examination, based on the technical merits of the position. The Funds have not identified any such position for which an asset or liability must be reflected in the Statements of Assets and Liabilities.

At March 31, 2023, information on the tax components of capital was as follows:

	COST	UNREALIZED UNREALIZED APPRECIATION DEPRECIATION		NET UNREALIZED APPRECIATION (DEPRECIATION)

At March 31, 2023, the Funds had cumulative tax basis capital losses from prior fiscal years as shown on the following table, which may be carried forward to offset future capital gains. To the extent such carryforwards are used, capital gain distributions may be reduced to the extent provided by regulations. Such capital loss carryforwards do not expire.

# **Expense Example**

March 31, 2023 (Unaudited)

As a shareholder of the Fund, you incur two types of costs:

- (1) transaction costs, including
  - (a) sales charges (loads) on purchase payments, for Class A shares;
  - (b) a deferred sales charge on redemptions of any part or all of a purchase of \$1 million of Class A shares within 12 months of purchase;
  - (c) a deferred sales charge on redemptions of Class C and Class C2 shares within 12 months of purchase;
- (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses.

This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on a \$1,000 investment beginning on October 1, 2022, and held until March 31, 2023.

#### **ACTUAL EXPENSES**

For each class of shares, the Actual section of the accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the Actual section for your class of shares under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

For each class of shares, the Hypothetical section of the accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the Hypothetical section of the table for each class of shares is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different mutual funds. In addition, if these transactional costs were included, your costs would have been higher.

The actual and hypothetical examples shown assume a \$1,000 investment at the beginning of the period, October 1, 2022 and held through March 31, 2023.

#### PORTFOLIO PROXY VOTING

#### Policies and Procedures:

The Trust has delegated to the Advisor voting decisions respecting proxies for the Fund's voting securities. The Advisor makes voting decisions in accordance with its Proxy Voting Policy and Procedures. A description of the Policy and Procedures is available (i) without charge, upon request, by calling the Advisor toll-free at 1-800-847-0200, (ii) on the Thornburg website at www.thornburg.com, and (iii) on the U.S. Securities and Exchange Commission's website at www.sec.gov.

Information regarding how proxies were voted is available on or before August 31 of each year for the twelve months ending the preceding June 30. This information is available (i) without charge, upon request by calling the Advisor toll-free at 1-800-847-0200, (ii) on the Thornburg website at www.thornburg.com, and (iii) on the U.S. Securities and Exchange Commission's website at www.sec.gov.

#### **AVAILABILITY OF QUARTERLY PORTFOLIO SCHEDULE**

The Funds file with the Securities and Exchange Commission schedules of their portfolio holdings on Form N-PORT EX for the first and third quarters of each fiscal year. The Funds' Forms N-PORT EX are available on the Commission's website at www.sec.gov, or may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Funds also make this information available on their website at www.thornburg.com/download or upon request by calling 1-800-847-0200.

### STATEMENT REGARDING LIQUIDITY RISK MANAGEMENT PROGRAM

The Trustees of the Trust have appointed the Advisor ("Program Administrator") to administer the Trust's liquidity risk management program (the "LRMP") adopted for each of the Funds under rule 22e-4 under the 1940 Act (the "Liquidity Rule"). The LRMP is designed to reduce the risk that a Fund will be unable to meet its redemption obligations under the 1940 Act, and to mitigate the dilution of the interests of Fund shareholders occasioned by redemptions tendered by other shareholders ("Liquidity Risk"). Pursuant to the LRMP, the Program Administrator has delegated certain functions, including daily oversight and management of the Funds' Liquidity Risk, to its Liquidity Risk Management Committee (the "Liquidity Committee"). Under the LRMP, the Liquidity Committee performs the annual review of the LRMP required by the Liquidity Rule.

On December 7, 2022, the Trustees reviewed the Liquidity Committee's written report (the "Report") concerning the operation of the LRMP for the period from November 21, 2021 through November 20, 2022 (the "Reporting Period"). The Report addressed the operation, adequacy and effectiveness of the LRMP, the operation of a Fund's highly liquid investment minimum, and any material changes to the LRMP during the Reporting Period. The Report provided an assessment of the various factors relevant to each Fund's Liquidity Risk, an evaluation of data provided by a third-party liquidity assessment vendor and other relevant data, and reports on the Liquidity Committee's consideration of intermediary firms with the largest beneficial ownership positions in each Fund, the likelihood that any of those firms may redeem their clients' investments from the Funds without prior notice, and the effect that such redemptions could have on Fund liquidity. The Report concluded that the LRMP remains adequate and effective to address each Fund's Liquidity Risk, that all of the Funds are able to meet redemption requests in current market conditions and in reasonably expected stressed conditions without significant dilution of remaining shareholders, that each Fund remains primarily highly liquid, each Fund's liquidity classifications during the reporting period were reasonable, and the third-party liquidity assessment vendor's system continues to be a useful tool for assessing the Funds' Liquidity Risk. The Report stated that there have been no instances since the LRMP's adoption in which a Fund exceeded its limitation on illiquid investments, nor have there been any material changes to the LRMP since its adoption.

# Trustees' Statement to Shareholders (Unaudited)

Readopted September 13, 2022

The Trustees believe current and prospective shareholders should know how we discharge our responsibilities in supervising the Funds' investment advisor and in reviewing the advisor's contract for renewal. Since 2005, we have issued a statement which sets out clearly the three principal guidelines that we follow in supervising the Trust's investment advisor on your behalf. In accordance with our customary practice, in September of this year we again reviewed our statement and concluded we should reissue this statement outlining the principal features of our supervision of the advisor's performance of investment management services for the Funds.

We begin with the premise that each shareholder selected his or her Fund because its investments are managed by the investment advisor identified in the prospectus and in accordance with the objective and policies described in the prospectus. We realize, as each of you do, that if you believe that your Fund's stated objective and policies no longer serve your personal investment goals, you can sell your shares and leave the Fund.

Therefore, we believe that our primary supervisory task – our principal obligation to you – is to assess the nature and quality of the advisor's services, and to confirm that the advisor actively and competently pursues the Fund's objective, in accordance with the policies set out in the prospectus. To do this, we meet regularly with management to review your Fund's portfolio and to discuss the advisor's specific actions and judgments in pursuing the Fund's objective. We do not substitute our own judgment for the advisor's decisions in selecting investments; the advisor is paid to exercise its informed judgment on investment decisions, and we seek to confirm, in reviewing the advisor's performance, that the advisor is doing just that.

Second, we are conscious of costs and the effect that costs have on shareholders' returns. We try to make sure that your Fund's fees and costs are reasonable in relationship to the services rendered and that they are generally in line with those charged by other expert investment advisors, consistent with our belief that the Fund's investors searched for and expect that expertise and attention and have decided to pay a reasonable price for it. We do not put the management contract "out to bid" as a matter of course, and we would not do so unless we had concluded that the advisor materially had failed to pursue the Fund's objectives in accordance with its policies, or for other equally important reasons. We believe that any other approach would be inconsistent with your interests and contrary to your expectations when you bought shares of the Fund in the first place.

Finally, because we believe that most Thornburg Fund shareholders have invested with a long-term perspective, we try not to focus too much on the fashions of the moment and on short-term performance. The market will not favor any specific investment objective or set of policies at all times and under all economic circumstances. A fund will experience periods of both high and low returns relative to other funds and other investments. Even if one of our Funds is not favored by the market at a particular time, we believe that the advisor is nonetheless obliged to remain true to the Fund's objective and policies, and we watch to see that it does so.
